

# VACUUM SOLUTIONS AUSTRALIA

**Pulling Together The World's Best In  
Engineering Componentry**

**Rockwell  
Automation**

**Allen-Bradley • Rockwell Software**

VACUUM SOLUTIONS AUSTRALIA is proud to introduce our latest innovations in Medical Suction.

Utilising the most modern technology from around the world, we now offer a suction control module for multiple pump installations from 2 to 4 pumps, that can provide BMS data in most required protocols.

ModBus is standard but BacNet and Lon-Works are also available by simply adding a protocol converting module.

VACUUM SOLUTIONS AUSTRALIA is supported by DVP Vacuum Technology (Italy), Walker Filtration (UK), Rockwell Automation (USA), and Sprecher & Schuh (Germany) to bring you unparalleled technology & versatility in medical suction control.

In an environment where energy efficiency and system data acquisition is critical, VSA can provide a solution that ticks all engineering design boxes yet still doesn't cost the earth.
